

PROJECTS WE LOVE

# Modern Marvel

## Why do you love this project?

This center-entrance brick colonial in Winchester was easily our favorite project of the past year, and it gave us the opportunity to transform a traditional New England home into a modern space. This particular project allowed us to put our full repertoire of skills on display. From careful prep work to the detailed finishing touches, we think the final product speaks for itself. The result is a seamless meld of classic and contemporary, completed within budget and on time.

## How did you approach this project?

By working directly with the designer and homeowners throughout this particular project, we were able to collaborate on timelines, colors, and decor to keep the process stress-free and achieve just the right end product. We always bring an exceptionally high level of craftsmanship to each of our projects, and we pride ourselves on our ability to communicate with our clients every step of the way. We know that homeowners don't make the decision to undertake a major painting project lightly, so we strive to ensure that the process is as streamlined as possible, while still preserving the unique attention to detail that is required.
